

# Measure specifications: Antibiotic Utilization for Respiratory conditions (AXR)

# Metric information

**Metric description:** The percentage of episodes for members 3 months of age and older with a diagnosis of a respiratory condition that resulted in an antibiotic dispensing event.

Metric specification version: HEDIS® Measurement Year 2024 Technical Specifications for Health Plans, NCQA.

Data collection method: Administrative only.

**Data source:** ProviderOne Medicaid claims/encounter and enrollment data.

Claim status: Include only final paid claims or accepted encounters in metric calculation.

**Identification window:** Intake period.

Direction of quality improvement: NCQA does not view higher or lower service counts as indicating better or

worse performance.

**URL of specifications:** NCQA HEDIS measures

#### Metric Details

Eligible population

| Measure                              | Description  |
|--------------------------------------|--|
| Age                                  | 3 months and older as of the episode date  |
| Gender                               | N/A  |
| Minimum Medicaid enrollment          | 30 days prior to episode date through 3 days after the episode date. Enrollment must be continuous.  |
| Allowable gap in Medicaid enrollment | No gaps.   |
| Medicaid enrollment anchor date      | None.  |
| Medicaid benefit and eligibility     | Includes Medicaid beneficiaries with comprehensive medical benefits. Excludes beneficiaries that are eligible for both Medicare and Medicaid and beneficiaries with primary insurance other than Medicaid. |

Measure specifications: Antibiotic Utilization for Respiratory Conditions April 08, 2025
