Breast Cancer Screening

| Medicaid benefit and eligibility | Includes Medicaid beneficiaries with comprehensive medical benefits or family planning only benefits. Excludes beneficiaries that are eligible for both Medicare and Medicaid and beneficiaries with primary insurance other than Medicaid. |

**Denominator:**

*Data elements required for denominator:* The eligible population.

**Required exclusions for denominator.**
- Eligible population exclusions are listed in the eligible population table above.
- Metric specific exclusions:
  - Beneficiaries in hospice care.
  - Members 66 years of age and older as of the last day of the measurement year with frailty and advanced illness. See HEDIS® manual for more information.
  - Bilateral mastectomy any time during the member's history through the last day of the measurement year.

**Deviations from cited specifications for denominator.**
- HEDIS® specifications require no more than one gap in continuous enrollment of up to 45 days during each year of continuous enrollment. To determine continuous enrollment for a Medicaid beneficiary for whom enrollment is verified monthly, as is the case for the ProviderOne data source, the Medicaid beneficiary may not have more than a 1-month gap in coverage (i.e., a Medicaid beneficiary whose coverage lapses for 2 months [60 days] is not considered continuously enrolled).

**Numerator:**

Beneficiaries must qualify for inclusion in the denominator to be eligible for inclusion in the numerator.

*Data elements required for numerator.* One or more mammograms any time on or between two months and two years prior to the measurement year and the last day of the measurement year.

**Required exclusions for numerator.**
- None

**Deviations from cited specifications for numerator.**
- None
