**DSRIP Program Summary**

**Metric utility:** ACH Project P4P ■ ACH High Performance ■ DSRIP statewide accountability □

**ACH Project P4P – Metric results used for achievement value:** Submetric results reported for three age groups: 0-17 years, 18 – 64 years, 65+ years. Weighted average of performance for each submetric is used to calculate overall AV; determined by number of Medicaid beneficiaries the ACH has in the denominator of each submetric.

**ACH Project P4P – Improvement target methodology:** improvement over self (1.9% improvement over reference baseline performance).
**Percent Homeless (Narrow Definition)**

**ACH High Performance – methodology:** HCA will use a Quality Improvement (QI) Model to determine relative high performance among ACHs for the set of High Performance metrics. For more information, see Chapter 8: ACH High Performance Incentives.

**ACH regional attribution:** Residence in the ACH region for 7 out of 12 months in the measurement year.
