# Overview

This report details the Medicaid Transformation Delivery System Reform Incentive Payment (DSRIP) program funding activity through September 2019. It reflects funds earned by Indian Health Care Providers (IHCPs) implementing IHCP-specific projects, managed care organizations (MCOs), and Accountable Communities of Health (ACHs).

The measurement period for financial data is by calendar year (CY) for all entities in this report.

## Incentives earned for IHCP-specific Projects Plan

### Overview

As part of the government-to-government relationship with Indian nations, Health Care Authority (HCA), IHCPs, and the American Indian Health Commission for Washington State established the IHCP-specific projects. Centers of Medicare & Medicaid Services (CMS) approved the [Indian Health Care Provider protocol](#). DSRIP funds associated with this project are distributed from HCA to IHCPs through the financial executor portal.

Commission Delegates represent each of the 29 federally recognized Tribes and two Urban Indian Health Programs (UIHPs) in Washington. The Delegates decided that earned incentive funds would be equally distributed among the 31 IHCPs. In addition, the Northwest Portland Indian Health Board would receive a one-time payment of \$550,000 to support establishment of a Community Health Aide Program Board.

The Medicaid Transformation Project (MTP) IHCP Planning Funds Plan and the IHCP-specific Projects Plan, written by the commission and IHCPs, earned the first two rounds of funds. For 2019–2021 (demonstration year (DY) 3-DY5), IHCPs earn the funds on a semi-annual basis.

### Incentive funds earned

The table below reflects incentives distributed to IHCPs through September 30, 2019. CMS approved the IHCP protocol in February 2018, so incentives earned for the IHCP-specific projects occurred after this date.

## Incentives earned by MCOs

### Overview

DSRIP funds earned by MCOs are distributed from HCA to the MCO, and does not involve the financial executor portal. The amount of incentives available to an individual MCO is determined by the attributed statewide managed care member months under signed Apple Health contracts for the associated calendar year. MCOs include:

- Amerigroup (AMG)
- Community Health Plan of Washington (CHPW)
- Coordinated Care of Washington (CCW)
- Molina Healthcare of Washington (MHW)
- United Healthcare Community Plan (UHC)

MCOs can earn DSRIP incentive payments for reporting data to measure progress toward value-based purchasing (VBP) adoption targets and achievement of and improvement toward VBP adoption targets. See the [Measurement Guide](#) (Chapter 3) for more information.

### Incentive funds earned

The table below reflects incentives distributed to MCOs through September 30, 2019. Note that VBP incentives were not available for year 1 (2017). **The first VBP payments to MCOs will occur in quarter (Q) 4 2019.**

# Incentives earned by ACHs

## Overview

DSRIP incentive funds earned by ACHs are held in accounts managed by an independent financial executor. The financial executor distributes these funds to ACHs and partnering providers through a web-based portal—called the financial executor (FE) portal—under the direction of ACHs.

Below are the acronyms for each ACH, which is how the name will appear in the tables in this report.

**Table 3: ACH acronyms**

| ACH name                        | Acronym |
|---------------------------------|---------|
| Better Health Together          | BHT     |
| Cascade Pacific Action Alliance | CPAA    |
| Elevate Health                  | EH      |
| Greater Columbia                | GCACH   |
| HealthierHere                   | HH      |
| North Central                   | NCACH   |
| North Sound                     | NSACH   |
| Olympic Community of Health     | OCH     |
| SWACH                           | SWACH   |

## Earned incentives

Throughout Medicaid Transformation, ACHs may have earned:

- **Project incentives** through successful submission and full valuation of their project plans, any by demonstrating milestone achievement. A point-in-time client enrollment count from November 2017 set the ACH population counts for the calculation of maximum potential ACH project and integration incentives. ACH population count included Medicaid and SCHIP beneficiaries with comprehensive physical and behavioral health care benefits—also referred to as full benefit Title XIX or Title XXI coverage—as of November 2017.

**Table 4: percentage of Medicaid population attributed by ACH region (November 2017)**

| ACH   | Population (%) |
|-------|----------------|
| BHT   | 11%            |
| CPAA  | 10%            |
| EH    | 12%            |
| GCACH | 14%            |
| HH    | 22%            |
| NCACH | 5%             |
| NSACH | 15%            |
| OCH   | 4%             |
| SWACH | 7%             |

- **Project plan bonus pool incentives** for selecting more than four projects in their project plans. This was a one-time opportunity. Four ACHs earned this incentive (CPAA, NCACH, NSACH, and OCH).
- **Integration incentives** by achieving milestones related to the transition to integrated managed care.

- **VBP incentives** by reporting progress on VBP milestones and improvement, and achievement of VBP adoption targets in the region.
- **ACH high-performance incentives** distributed based on relative ACH performance on a set of metrics and adjusted for the relative proportion of Medicaid covered lives in each ACH region.
- **Design funds** distributed in DY1 to enable ACHs to develop the technology, tools, and human resources to support the capacity to pursue DSRIP goals and coordinate across community partners. HCA paid Phase one design funds (\$1 million per ACH) to ACHs in June 2017. HCA paid Phase two design funds (\$5 million per ACH) in September 2017. Since the financial executor portal was in development at that time, HCA paid design funds directly to ACHs. See ACH [semi-annual reports](#) for a description of how these funds were used to support DSRIP objectives. Tables in this report do not include the \$6 million each ACH earned for design funds.

## Distribution of earned incentives

In this report, distributed incentives are listed according to [use categories](#) and by type of partnering provider. ACHs must identify payments to themselves and partnering providers using standardized use categories in the FE portal. HCA developed these use categories, with input from ACHs.

### Interest accrued in the FE portal

HCA and the FE implemented a change that allows ACHs to accrue interest in the FE portal. ACHs began accruing interest in August 2019. This quarterly report will include the amount of interest earned for each ACH, starting with Q3 2019. The decision to allow interest accrual was based on ACH requests and the recognition that each ACH is likely to retain funding in the FE portal based on allocation timelines and contract terms with partnering providers.

HCA will monitor the FE portal to make sure ACHs are distributing funds to partnering providers in a timely manner. If there are concerns with funds being held and not distributed, HCA has the authority to convert FE portal accounts back to non-interest-bearing accounts.

### Interpretation guidance

The tables in this report reflect incentive payments earned and distributed through the FE portal. Each ACH has a budget and funds flow model specific to its region, approved by the ACH’s decision-making body. Although all ACHs use these categories, each ACH may use them differently. For this reason, it is difficult to make comparisons between ACHs, so additional context may be necessary. For more information, visit the [Medicaid Transformation resources](#) webpage.

The following tables list the total amount of incentive funds earned and distributed as of September 30, 2019, as well as quarterly breakdowns for 2019 (through Q3).

## Incentives earned and distributed, statewide

### Incentive funds earned

At the end of September 2019, HCA distributed more than \$441 million in incentive funds to ACHs through the FE portal, with the majority of incentive funds earned for project milestone achievement (more than \$364 million).

## Project incentive funds distributed to shared domain 1 partners

Shared domain 1 is a statewide partnership across the nine ACHs and all public hospitals to advance domain 1 health system capacity building efforts. Shared domain 1 payments are authorized by each ACH, based on earned regional project incentives (similar to partnering provider payments). Funds distributed to shared domain 1 partners reflect collaborative capacity building efforts in areas such as workforce, VBP readiness, and systems for population health management (e.g., health information technology). These capacity building efforts are foundational and directly related to the transformation projects in domains 2 and 3. More information about domain 1 is available in the [Project Toolkit](#).

As of Q3 2019, 54 organizations are participating in shared domain 1 activities across all ACHs. ACHs have distributed three payments to shared domain 1 partner organizations. The cumulative amount of shared domain funds distributed is \$87,005,582.00.

## Incentive funds distributed by ACH

The table below lists total (cumulative) incentives earned by ACHs and disbursed by HCA to the FE portal, and distributed by ACHs (outside of shared domain 1 payments allocated).

## Distribution by use category

The remaining tables in this section exclude shared domain 1 distributions to focus attention on the other use categories that relate to the ACH regional investment strategy for project implementation. ACHs distributed more than \$145 million, according to the other defined [use categories](#) through the FE portal. Although all ACHs use a common set of use categories in the FE portal, ACHs may use them differently. For this reason, it is difficult to make comparisons between ACHs, so additional context may be necessary.

## Distribution by partnering provider type

ACHs have established elaborate networks of partners to implement community driven health transformation approaches. Partners span a variety of settings and types, including, but not limited to, primary care, behavioral health, oral health, Tribes, hospitals, and community based organizations. According to the FE portal, more than 500 organizations are participating in DSRIP activities in one or more ACH. Non-Tribal providers are categorized according to traditional Medicaid providers and non-traditional Medicaid providers.

- Traditional Medicaid provider: these providers bill for services, either to an MCO or to the state directly (e.g., hospitals, primary care providers).
- Non-traditional Medicaid provider: this category of partners may receive some Medicaid funding through programs that provide grant dollars, etc., but they do not provide billable healthcare services to Medicaid members (e.g., behavioral health organizations, community-based organizations, fire districts).

At the end of September 2019, **554 unique partnering provider organizations** registered in the FE portal. The table below reflects organizations that are registered in the FE portal and participating in one or more project areas with a given ACH.

Partnering provider organizations may partner with more than one ACH, and may not be implementing all project areas with an ACH. If a provider organization partners with more than one ACH, the organization will be counted under each ACH partner.

While the list of partners registered in the FE portal is not exhaustive of all entities supporting project activities, it is a reliable indicator of the breadth of partner engagement at the regional level.<sup>1</sup>

To date, ACHs have processed nearly 2,500 payments through the FE portal. ACHs authorized payments to 560 partnering provider organizations as of September 2019. Note that this may count some organizations more than once if they are partnered with more than one ACH.

<sup>1</sup> MCOs are expected to participate in delivery system reform efforts as a matter of business interest and contractual obligation to the state. For this reason, they do not receive incentive payments for participation in ACH-led transformation projects. However, MCOs are eligible to earn MCO VBP incentives for achieving annual MCO VBP targets.

Key considerations when reviewing the distribution of funds to partnering provider organizations:

- Although not a partnering provider, ACHs require resources to manage transformation project activities. Payments authorized by the ACH organization to the ACH organization are included below.
- Some ACHs may have paid partnering provider(s) outside of the FE portal. This report only reflects the payments distributed to partnering providers through the FE portal.
- For information about the number of organizations committed to support shared domain 1 activities and related funds, see page 7 of this report.

## Quarterly incentives earned and distributed by ACHs in 2019

The following tables list funds earned and distributed for each quarter of 2019. Reports for previous quarters, such as [2018](#), are available on the [Medicaid Transformation resources](#) webpage. Note that ACHs typically earn incentive funds twice per year, and each ACH has a unique cadence for distributing funds to partnering providers.

## HH quarterly incentive funds report, January–September 2019

The following tables list funds earned and distributed for each quarter of 2019. Reports for previous quarters, such as [2018](#), are available on the [Medicaid Transformation resources](#) webpage.

Note that ACHs typically earn incentive funds twice per year, and each ACH has a unique cadence for distributing funds to partnering providers.
