	<ul style="list-style-type: none"> • HIT Roadmap and Operational Plan (PowerPoint] • The Medicaid Transformation Demonstration (Demonstration) is a five-year agreement between the Health Care Authority and the federal Centers for Medicare & Medicaid Services (CMS) to invest in and transform healthcare at the regional level • Goals for the Demonstration: Coordinate and align Health IT activities currently underway; link services and core providers across the continuum of care to the greatest extent possible; Pursue improved coordination and integration between Physical health, Behavioral Health, and Home and Community-Based Providers and community-level collaborators • Clinical Data Repository (CDR) and continuity of care are challenging; remains one of the larger challenging and continuing issues • Would like to examine richness of (players), and ensure to the greatest extent as possible, coordinating information, not replicate • Other continuing issues include reliability and expense • Plan will require a lot within HCA as well as cross agency, provider associations, state information exchange and Accountable Communities of Health (ACHs) • Activities will be helpful for coordinators to participate in, to take advantage of opportunity, info sharing; it's difficult for any one individual to cover the waterfront of activities • Thank you for your comments; everybody recognizes that improvement of CDR implementation in the operational plan • [Janice Tufte] Question: Is there phone access for monthly meetings? • [Jennie Harvell] There is a recurring webinar with and telephone number included in the meeting series • No further questions 	<p>Sent via email to participants in advance of meeting</p> <p>Link to HIT Roadmap & Operational Plan:</p> <p><i>“Medicaid Transformation Resources”</i>, under <i>“General”</i> tab.</p> <p>https://www.hca.wa.gov/about-hca/healthier-washington/medicaid-transformation-resources</p>

	<ul style="list-style-type: none"> • Areas dominating health care: individual market, qualified health plans, and what may become the public option • Seems to be occupying a great deal of our time • Anticipate bills getting hearings; what ends up passing ends up being a different story • Opioid bill in hearing today; moving forward in positive manner • At Federal government level, note House continuing resolution and 6 year reauthorization • President did a tweet about CHIP reauthorization • No other questions; carry over CHIP update [next on agenda] 		
9:10-9:15 5 min	10. CHIP Update	MaryAnne Lindeblad	Informational
	<ul style="list-style-type: none"> • Not a lot of new to update; there has been a lot of back and forth; remains part of the continuing resolution • Will be a coin toss about whether federal government will shut down; anticipate little effect, unless there is a long protracted shut down • Complication would be that we (HCA) would not have CMS folks to talk to; regional office would be shut down; State Plan Amendment requests and guidance would be the greatest implications • Nice part of the bill that Shawn O’Neill spoke about, 312% would be entitlement; if it passes, it would mean those kids would not lose CHIP coverage • Speaker Chopp has made CHIP one of the highest of priorities; this gives it a better chance • Questions on Legislative Update or CHIP? • [Janice Tuftte] Q: Are hearing aids part of the governor’s budget? • [MaryAnne Lindeblad] A: Believe that was in Governor’s budget, we will see where it goes

	<ul style="list-style-type: none"> Continuing to go region to region identifying issues and moving ahead with those going in 2019 [Huma Zarif for Daniel Gross - Northwest Health Law Advocates] Q: What are some of the issues in North Central; Hearing there are issues with access to care [MaryAnne Lindeblad] A: Confusion around some referrals; when have plans no longer in area, provide referrals to new plans; there have been some delays and some issues for prescription medications transferring properly; continuity of care includes medications; think it's just getting some of those issues smoothed out; some providers weren't used to taking Medicaid, and there were some instances regarding readability of cards [MaryAnne Lindeblad] If having issues with coverage, we haven't been hearing that; asks Claudia St. Clair if there is anything she can share from Molina perspective [Claudia St. Clair] Have been handling issues on case by case basis, making adjustments in the system straight away [Huma Zarif for Daniel Gross - Northwest Health Law Advocates] Q: Heard there were 2,600 assigned to wrong plan [MaryAnne Lindeblad] A: Issue was resolved before we went live No additional questions
