Trauma Informed Approach Implementation Grant

Distribution of Awards and Partnerships.

Washington State Health Care Authority

Trauma Informed Approach Implementation Grants

- HCA is committed to implementing Trauma Informed Approach (TIA) in the State of Washington
- HCA dedicated 1.5 Million from both our Mental Health and Substance Use Block Grant to provide 31 Grants total to providers in our community to implement TIA.
- Each Awardee was required to partner with another agency to share their expertise and spread the reach of TIA.
  - These Partnerships were encouraged to be between a Behavioral Health Provider and a Community Service Provider in any combination they preferred.
  - Many awardees partnered with more then one agency.

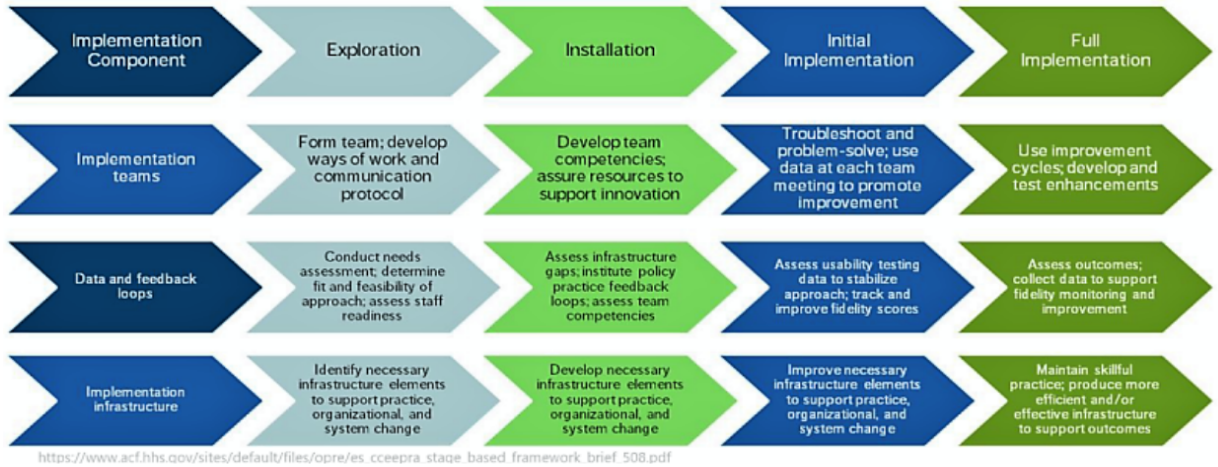
Stages of Implementation



Collaborative Work with Partners encompasses the implementation of the 10 domains in the SAMHSA TIP 57 with work happening between the partners to implement TIA in their agencies.
External Training and Consolation Provided - when the expertise of an organization is being shared with their partners to implement in their partners.
Internal Implementation and External Training Provided - when an agency is training their staff and improving their implementation to provide trainings for their partners.
Collaborative Training Provided - Training around a shared topic was provided amongst many partners to create a common framework.
Conference Provided - when the lead agency is putting on a conference for multiple partners to train them and introduce TIA.
