

WISe Service Characteristics

October 2017 to September 2018 (last 4 quarters of data available)

Distribution of Services by Region

Average BHO Mental Health Encounters per WISe Service Month

NOTE: Numbers shown on bars represent the average number of encounters per WISe service month for each service grouping. *Regions reflect HCA managed care regions as of January 2019.* ¹Data for North Central through December 31, 2017. ²Encounter detail for Southwest currently unavailable after IMC transition April 1, 2016.

WISe Service Characteristics

July 2014 to September 2018 (cumulative since WISe program began)

Distribution of Services by Region

Average BHO Mental Health Encounters per WISe Service Month

NOTE: Numbers shown on bars represent the average number of encounters per WISe service month for each service grouping. *Regions reflect HCA managed care regions as of January 2019.* ¹Data for North Central through December 31, 2017. ²Data for Southwest through March 31, 2016, with the exception of Klickitat county data which continues through September 2018.

DATA SOURCE: Administrative data (BHSS).

NOTES: WISe services include all WISe mental health outpatient service encounters recorded in BHSS data system, including DBHR-paid managed care mental health outpatient services received in a month with at least one "U8" mental health service. Regions reflect HCA managed care regions as of January 2019. Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. The service location summary excludes encounters from Greater Columbia prior to 4/1/2016, as the data is unavailable for that time period. Both the service location and service modality summary exclude data from North Central after 12/31/2017 and Southwest (except Klickitat county) after 3/31/2016, as they are unavailable in the BHSS data system. Because a small number of clients participating in the Address Confidentiality Program are included in statewide totals but not in regional breakdowns, numbers do not sum to statewide totals. Median length of stay shown for episodes of WISe services starting in time period specified.

DATA SOURCE: Administrative data (BHSS).

NOTES: WISe services include all WISe mental health outpatient service encounters recorded in BHSS data system, including DBHR-paid managed care mental health outpatient services received in a month with at least one "U8" mental health service. **Regions reflect HCA managed care regions as of January 2019.** Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. The service location summary excludes encounters from Greater Columbia prior to 4/1/2016, as the data is unavailable for that time period. Both the service location and service modality summary exclude data from Southwest (except Klickitat county) after 3/31/2016, as it is unavailable in the BHSS data system. Because a small number of clients participating in the Address Confidentiality Program are included in statewide totals but not in regional breakdowns, numbers do not sum to statewide totals. Median lifetable length of stay shown for episodes of WISe services starting in time period specified.

DATA SOURCE: Administrative data (BHSS).

NOTES: WISe services include all WISe mental health outpatient service encounters recorded in BHSS data system, including DBHR-paid managed care mental health outpatient services received in a month with at least one "U8" mental health service. **Regions reflect HCA managed care regions as of January 2019.** Youth served in more than one region during the report date range have been allocated to the region in which they received the greatest number of WISe "U8" service encounters in the date range. Service months and service encounters for youth served in more than one region during a month have been allocated to the region in which they received the greatest number of WISe "U8" service encounters during the month. Data from Southwest (except Klickitat county) is unavailable in the BHSS data system after 3/31/2016, and thus is not shown. Because a small number of clients participating in the Address Confidentiality Program are included in statewide totals but not in regional breakdowns, numbers do not sum to statewide totals. Median lifetable length of stay shown for episodes of WISe services starting in time period specified.
