

## ACH semi-annual reporting period summary: January 1 – June 30, 2018

As part of the Healthier Washington Medicaid Transformation, Accountable Communities of Health (ACHs) submit [reports](#) to the state on semi-annual basis to provide updates on transformation activities, project implementation, and progress on required milestones as outlined in the [Project Toolkit](#). The following summary describes key highlights from the January 1 through June 30, 2018 reporting period, milestones achieved and incentives earned by ACHs, and expectations for the next semi-annual reporting period.

For more information, please visit the Healthier Washington Medicaid Transformation [webpage](#).

### Highlights of the semi-annual reporting period

**Continued Progress in Planning by All ACHs.** The semi-annual reports highlighted that the ACHs are continuing to make significant progress in planning for implementation of their selected projects. Thorough current state assessments were conducted focused on key areas. They have either released or are in process of releasing forms of agreement to potential partnering providers. They have had extensive community engagement and also highlight identified areas of technical assistance needed by partnering providers.

**Collaboration.** ACHs noted extensive collaboration on a variety of topics, including opportunities to jointly engage partnering providers that participate in two or more regions. ACHs are involved in ongoing meetings, and the ACH Executive Directors meet weekly to coordinate, review initiatives, and foster collaboration.

**Partnering Provider Engagement in Transformation Planning.** ACHs are involving partnering providers in planning in a variety of ways. In addition for asking for their response to various surveys and involvement in interviews as part of current state assessments, below are a few examples noted by ACHs where they are involving partnering providers:

- Working with partnering providers to articulate specific evidence-based care model and practice guidelines providers will need to follow for each project.
- Identifying partnering providers who can serve as champions of identified best practices.

### What to expect in the next semi-annual reporting period

**Implementation Plans due to the state and the Independent Assessor on October 1.** These plans lay the groundwork for current and future specific work steps required for successful implementation of transformation project strategies and achievement of key project milestones.

**Ongoing effort by ACHs to address administrative burden for partnering providers engaged in Medicaid Transformation across ACH boundaries.** ACHs indicate they will continue to convene and coordinate across partners in areas related to (but not limited to) ensuring alignment in cross-region provider goals, initiatives, quality improvement and assessments.

**Partnering Provider Technical Assistance.** ACHs are identifying and acting on needs for technical assistance and training among partnering providers. Various technical assistance, training, and learning collaboratives have been offered and are being planned to meet ongoing needs for support in transformation.

## ACH milestone achievement and earned incentives: January 1 – June 30, 2018

Table 1. Achievement Values (AV) and Potential Incentives for Reporting Period January 1, 2018 – June 30, 2018

	BHT	CPAA	GCACH	HealthierHere	NC ACH	NS ACH	OCH	Pierce County ACH	SWACH
<b>P4R Milestones Jan-June 2018</b>	<b>Achievement values earned for reporting on semi-annual progress by ACH</b>
