

Health Innovation Leadership Network Accelerator Committees Overview

Healthier Washington will build healthier communities through a collaborative regional approach, ensure health care focuses on the whole person, and improve how we pay for services in order to achieve the triple aim of better health, better care and lower costs.

Healthier Washington's measures of success are as follows:

- By 2019, 90 percent of Washington residents and their communities will be healthier;
- By 2019, all with physical and behavioral comorbidities will receive high-quality care; and
- By 2019, Washington's annual health care cost growth will be 2 percent less than the national health expenditure trend.

Key to success in achieving Healthier Washington's aims is the public-private Health Innovation Leadership Network (HILN), comprised of providers, business, health plans, consumers, community entities, governments, tribal entities and other key sectors to accelerate the initiative's efforts. Transformative, lasting changes requires focused and collaborative engagement of the public and private sectors working toward mutual goals.

In addition to HILN's overarching role as accelerators of culture change and Healthier Washington ambassadors, Healthier Washington developed HILN subcommittees, called "accelerator committees." The HILN Accelerator Committees focus on specific and timely efforts that directly impact and drive toward the achievement of Healthier Washington's measures of success.

HILN Accelerator Committees will:

- Accelerate the goals and objectives of Healthier Washington versus advise on policy and operational components of the initiative.
- Evolve, expand and disperse over time as Healthier Washington itself evolves in response to rapid-cycle learning and improvement.
- Build upon existing efforts and groups already in place.

- Be reflective of the HILN structure in public-private, multi-sector membership.
- Be championed by HILN members, with membership including leadership from HILN and non-HILN organizations.
